*topics subject to change

What We Do

Homeschool students in kindergarten through sixth-grade are invited to join us once a month to explore different topics related to fish, fishing, and the outdoors. Each month, we will have programs with educational lessons and hands-on activities. This program requires parent/guardian supervision for the entire program and is not a drop-off program. Programs may include dissections and outdoor activities, so please dress appropriately. Homeschool participants are welcome to visit the center before and after programs. This program caters to individual homeschool families; therefore, homeschool organizations should schedule a separate field trip.

Registration and Program Fee

The program fee is **$7.00 per person**, including students, parents, and siblings. Program fees are payable on the day of the program.

Registration is required as space is limited. To register, please visit our calendar at www.gofisheducationcenter.com/calendar-gfec and click on the program you would like your child(ren) to attend.
You will find a link to the event registration page where you can register your child(ren).

Please review the policies and information at the top of the webpage before registering. For additional information, please contact gofisheducationcenter@gmail.com.
