

What's for Dinner?

Use the clues below to draw your own

FOOD CHAIN

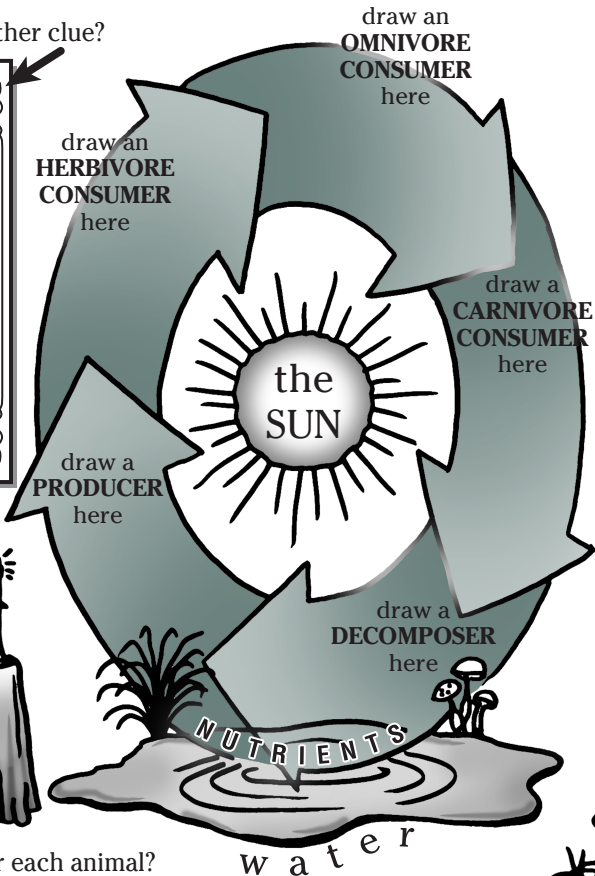

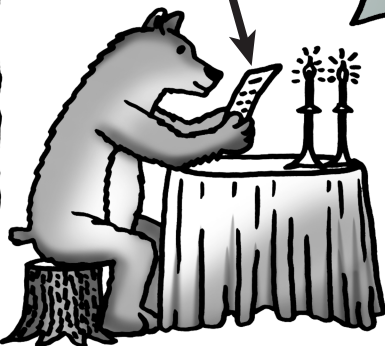

- Clue #1: Most living things need sunlight, water and energy (food).
 Clue #2: Some living things make their own food. They are called PRODUCERS.
 Clue #3: Some living things eat food. They are called CONSUMERS.
 Clue #4: Organisms, like worms and mushrooms are DECOMPOSERS. They recycle dead plants and animals into nutrients for plants to grow.

Hmmmm...could this be another clue?

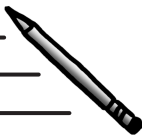

Picky Eater Cafe

| <u>consumers</u> | <u>food menu</u> |
|------------------|------------------------|
| 1) Carnivore ~ | Eats only meat/insects |
| 2) Herbivore ~ | Eats only plants |
| 3) Omnivore ~ | Eats both |

Can you order off the menu for each animal?

Rabbit _____
