*topics subject to change

**Register early –
programs fill quickly!**

Homeschool students in kindergarten through sixth-grade are invited to join us once a month to explore different topics related to fish, fishing, and the outdoors. Each month, we will have two identical programs to choose between; each with educational lessons and hands-on activities. This program requires parent/guardian supervision for the entire program. Some programs may include dissections and outdoor activities, so please dress appropriately. Homeschool participants are welcome to visit the center before and after programs. This program caters to individual homeschool families; therefore, homeschool organizations must schedule an educational field trip separately from this program. For additional information, please contact gofisheducationcenter@gmail.com.

The program fee is \$6.00 per person, including students, parents, and siblings. Siblings under the age of 3 are free. Program fees are payable on the day of the program. **Annual passes may not be used for Homeschool programs.** Library and free passes are intended for general admission only and cannot be used for this or any other educational program.

Space is limited, and registration is required. Registration is on a first-come, first served basis. To register, please visit our calendar at www.gofisheducationcenter.com/calendar-gfec and click on the program you would like to register your child for. You will find a link to the event registration page where you can register your child(ren) **and any siblings** that will attend. Please review the attendance policy before registering. Due to the popularity of this program, we have a waiting list and would like to give others an opportunity to participate if you're unable. We reserve the right to cancel a program due to unforeseen circumstances.

GO FISH
